

MOBILITI™ WITH NOTIFI™ CHEAT SHEET

You can now receive real-time push notifications that actually matter

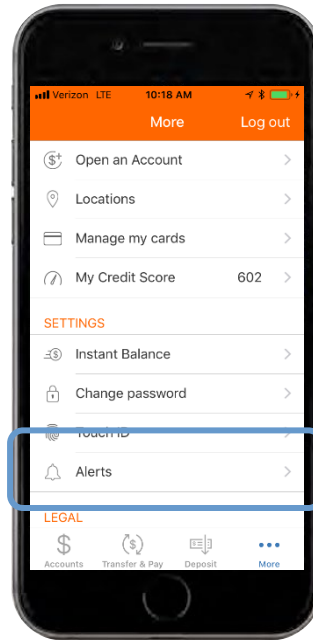

Getting started with Notifi

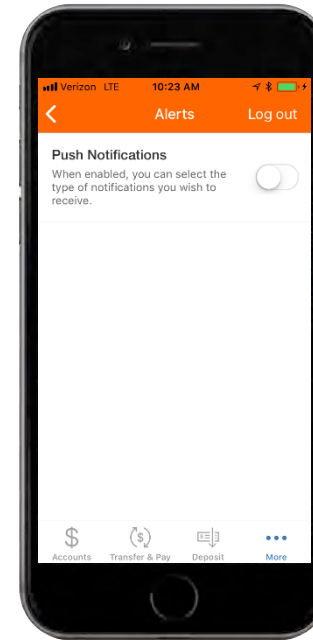

Log in to your app using your User ID and password, or biometric login.

After logging in, you will be brought to your account overview page. To enable Notifi, tap on the **“More”** button at the bottom right of the screen.

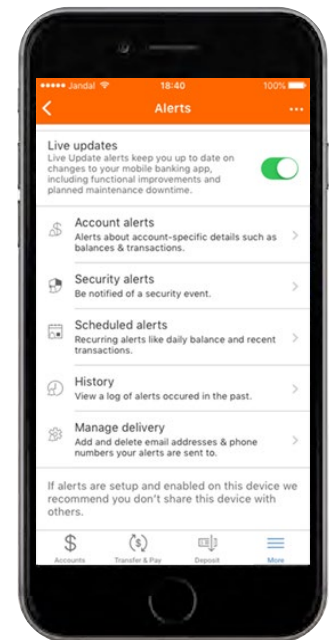

Under settings, tap on the **“Alerts”** tab.

To enable push notifications, toggle the switch.

Depending on your mobile operating system, you may be asked to confirm that you would like to enable push notifications. To enable them, tap **“Allow”**.

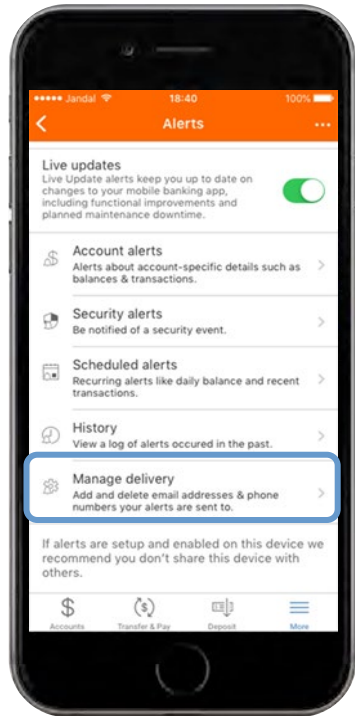

The green toggle indicates that this feature is enabled. You can customize alerts by selecting **“Account Alerts”**, **“Security Alerts”** or **“Scheduled Alerts”**. You can view your alert history by selecting **“History”**. You can also manage your delivery preferences by selecting **“Manage delivery”**.

MOBILITI™ WITH NOTIFISM CHEAT SHEET

You can now receive real-time push notifications that actually matter

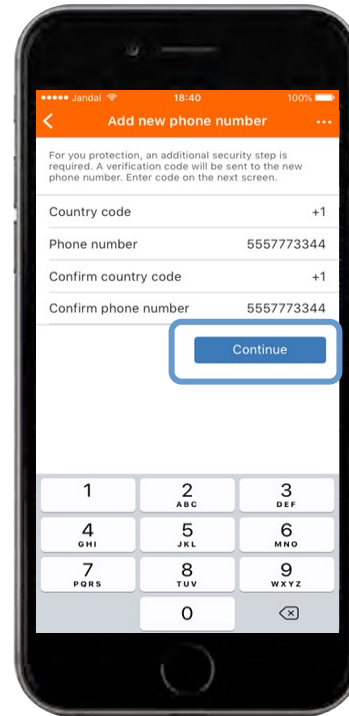

Managing notification delivery preferences

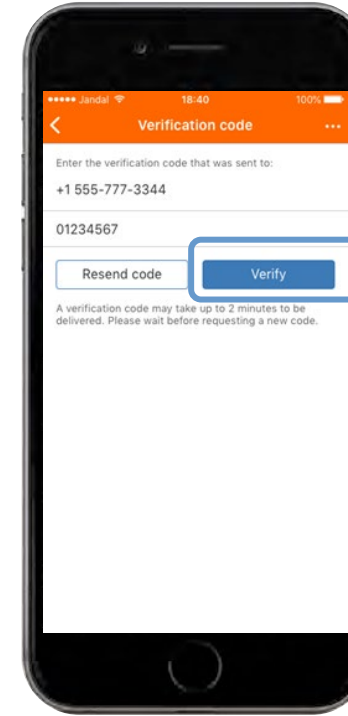

After enabling push notifications, tap on the “**Manage delivery**” tab.

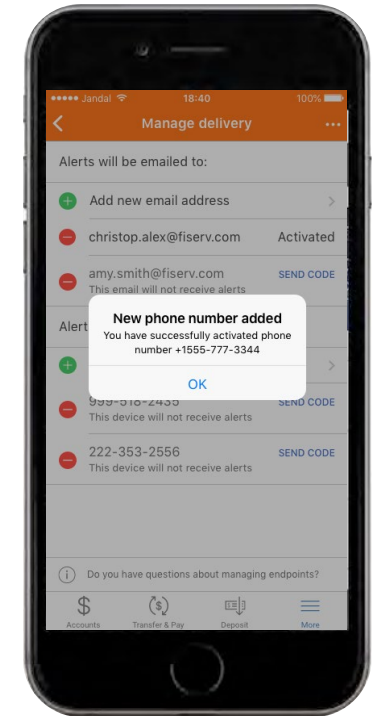

This is where you can manage your notification delivery preferences like adding new phone numbers and email addresses. Tap “**Add new phone number**” to start receiving alerts at a new phone number.

Enter the phone number and tap “**Continue**”.

The phone number you entered will be sent a verification code. Enter the verification code once received to verify the phone number and tap “**Verify**”.

After successfully verifying the new phone number, you will be prompted with a similar message as above. Press “**OK**” to continue setting up your notification preferences.

How to enable account alerts

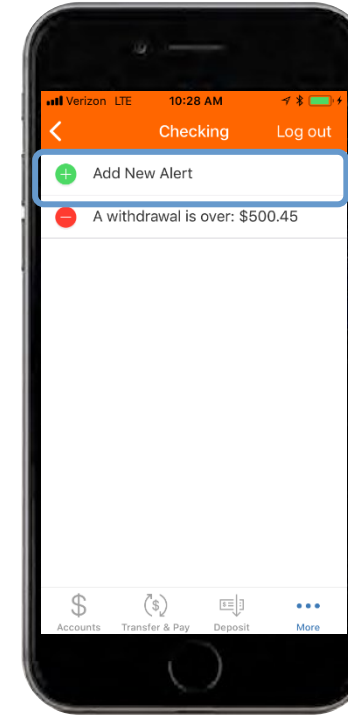

Under the “More” menu, tap on the “Alerts” tab under settings.

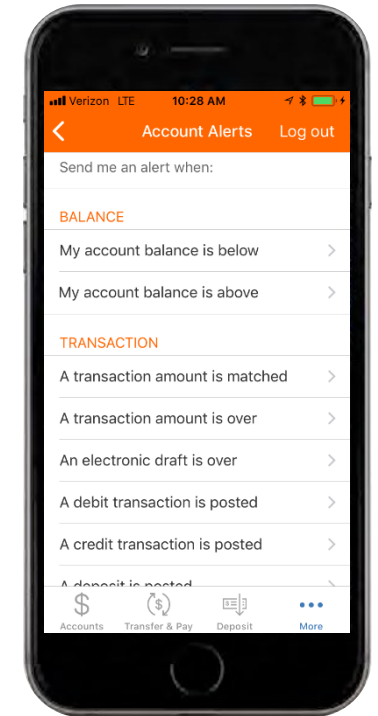

After enabling push notifications, tap on the “Account alerts” tab.

You will be able to choose the account for which you wish to receive alerts.

After selecting the appropriate account, you can add specific alerts. To add a new alert, tap on the “Add New Alert” tab at the top the screen.

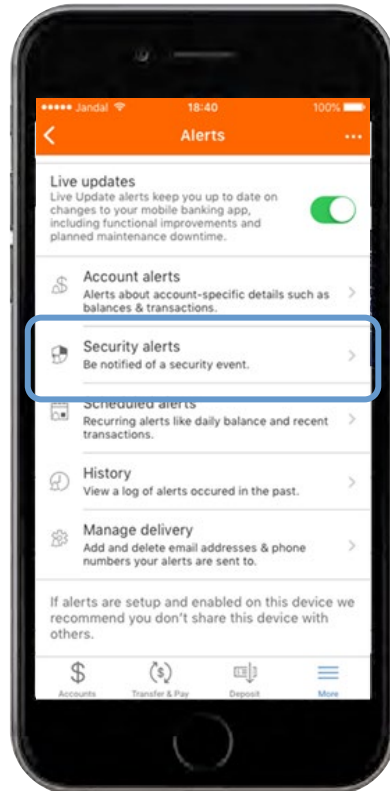

Where eligible, you can receive balance and transaction alerts. Tap on the specific alert(s) you want to receive and set specific parameters if necessary. These settings will be saved after they are enabled.
